**Ionic Rejuvenator BL228**

**User Manual**

Oregon Scientific Ionic Rejuvenator is a compact, 2-in-1 beauty device offering salon-style facial treatments to enhance your skin's natural beauty. Reach deep into the pores to remove minute impurities with high-tech ion extraction in cleansing mode, or switch to reviving mode for a gentle micro-current and micro- vibration massage that improves circulation and restores your skin's elasticity, reducing the lines and wrinkles. It even enhances the efficacy of your regular skincare products by optimizing their absorption. Also, this Ionic Rejuvenator has combined with the most advanced moisture detecting sensor technology. The strength of micro-vibration is automatically adjusted by the moisture level of skin and amount of cosmetics on it.

Treat yourself to a touch of luxury with this salon-style tool that fits in your make-up bag and refreshes your natural glow.

**How to use:**

1. Check if the battery is inserted properly. (Use AAAA Alkaline Battery)
2. Press the ON/OFF button once to activate the cleansing mode. Press twice for the reviving mode. Press three times to shut off.
