Dear Parents / Guardians,

Thank you for selecting SmartGlobe™ Starry by Oregon Scientific. This product combines map and constellations in one globe, and has built in Augmented Reality technology, providing you with a real world view with our dedicated Smart Globe App. As a truly international company, all of us at Oregon Scientific take a personal interest in designing products that help both children and adults understand more about our global neighbours. It is our goal that you will learn something new and inspiring that might change your perspective of the world.

Observe Constellation

Press the ON/OFF button to turn on the light and observe constellations at night. The globe shows the key stars and constellations with their common names.

Augmented Reality App

To activate the Augmented Reality function, download and install the App on your Smart Phone or Tablet PC.

This App supports both Apple iOS and Android system.

Pursuant to and in accordance with Article 14 of the Directive 2012/19/EU of the European Parliament on waste electrical and electronic equipment (WEEE), and pursuant to and in accordance with Article 20 of the Directive 2013/56/EU of the European Parliament on batteries and accumulators and waste batteries.

The barred symbol of the rubbish bin shown on the equipment indicates that, at the end of its useful life, the product must be collected separately from other waste.

Please remove the batteries/exchangeable batteries must be removed from the equipment before it is given as waste. To remove the batteries/accumulators refer to the specifications in the user manual. Therefore, any products that have reached the end of their useful life must be given to waste disposal centers specializing in separate collection of waste electrical and electronic equipment, or given back to the dealer when purchasing a new WEEE, pursuant to and in accordance with Article 14 as implemented in the country.

The adequate separate collection for the subsequent start-up of the equipment sent to be recycled, treated and disposal of in an environmentally compatible way contributes to preventing possible negative effects on the environment and health and optimizes the recycling and reuse of components making up the apparatus. Abusive disposal of the product by the user involves application of the administrative sanctions according to the laws in force.

The toy is only to be connected to Class II equipment bearing the following symbol.

Use the Augmented Reality App

1. After activating the App successfully, tick the Moving Globe Button in the middle of the App and wait for loading.
2. Keep your device about 30 cm away from the Globe and let the App scan the Globe automatically.
3. To start the activities, select the Activity icons at the lower right corner.

Getting Started

Your SmartGlobe™ Starry is powered by three AA size batteries or USB power source (not included). To open the battery cover, remove the screw under the base with a coin and then pull it open as shown. Install the batteries and then replace the cover back.

Caution

• Different types of batteries or new and used batteries are not to be mixed.
• Only use batteries of the same or equivalent type.
• Batteries are to be inserted with the correct polarity.
• Remove batteries from the unit if the unit is not going to be used for a long time.
• Remove all batteries when replacing.
• Do not dispose of batteries in fire.
• Non-rechargeable batteries are not to be recharged.
• Rechargeable batteries are to be removed from the product before being charged.
• Rechargeable batteries are only to be changed under adult supervision.
• Exhausted batteries are to be removed from the product.
• The supply terminals are not to be short-circuited.
• In an environment prone to static discharge, the unit may malfunction. To reset, remove batteries for at least 10 seconds before connecting the power supply again.

Cleaning and Maintenance

Your SmartGlobe™ should be checked regularly for damage to avoid the danger of an electric shock. Do not use them if they are damaged.

Always remove the batteries before cleaning. Do not attempt to dismantle any part of the product, and only use a soft, dry cloth for cleaning.

Do not get SmartGlobe™ or any of its parts wet, and be sure that your hands are clean before touching the globe surface.
